

## **Centurion Keyless Digital Locks**

**ID: LK CYL99...**

RRP: see table below

The Centurion YL-99 series of code access locksets are a revolutionary, easy to install and operate electronic code based entry lockset. They have been designed to retrofit in the most common applications used throughout Australia.

With up to 10 different user codes variable from 1 to 15 digits in length, your code security is maximized by providing very little chance of unauthorized entry. Along with passage functions and user code encryptions, the Centurion Code Lock is able to ensure the required level of security is provided in domestic applications. Adjustable backset latch, multiple finish/colour options and easy to follow installation instructions enable the Centurion Code Lock to be the best solution to endless security requirements for the security installer as well as providing a do it yourself option for retail sales.

Features include:

- ✓ Weatherproof external handle to resist even the harshest conditions
- ✓ Code encryption to prevent spying
- ✓ Low battery indicators with emergency battery pack override
- ✓ Blue backlit keypad for use in low light
- ✓ Durable handle springs and latching components
- ✓ Adjustable to suit 60-70mm backset and door thickness requirements
- ✓ Clutching external handle to prevent forced opening
