

Lenlok Roller Lock wide rib narrow face c4 pin cylinder

ID: LK 4395KD

The design team at Lenlok have recently undertaken a major upgrade of all models. The All New Lenlok range of roller door locks is an advancement on the tired range of like products that have been on the market for many years now. With a far more modern design, retrofit features and keying options, this range is a must for the retailer, tradesman or manufacturer. This model is designed for roller doors and can be used on shutters / grilles.

Features include:

- Retrofits to existing market standards. When used in conjunction with a separate adaptor plate kit, can retrofit over larger fascia cut outs e.g 3323 and 3369
- Supplied with a rekeyable 001 C4 inner (Keyline LKW5 or Silca LW4) style cylinder which can accommodate certain restricted barrel systems
- Can be supplied with or without cylinder
- Cylinders can be re-keyed without the removal of the main mechanism from the door
- Simple changing of the back cam allows the lock to be changed from a free latching mode into a deadlocking mode and vice versa
- Patented cam design prevents cam removal in the locked position
- Reverse C4 key required when product is configured for deadlocking mode allowing locking and unlocking from inside. C4 reverse keyblank is only supplied with KA or KD models
- Tamper proof screws supplied enhance security in deadlocking mode
- Ergonomically designed internal turn offers a more positive grip
- Locking arms have a 19mm throw
- High quality satin chrome finish zinc alloy fascia
- Supplied with tape to hold face plate on for easy installation
- Lock body designed for minimum protrusion
- Slide arms are constructed from galvanised steel for increased strength and have threaded holes for the screws making installation easier
- Lock body has integrated mechanism protectors. These keep the door from applying pressure to the the mechanism
