

MINI VIDEO RECORDER AND BODY CAMERA SET WITH MOTION DETECTION RECORDING

OZ Security Price \$359.95 + P&H
CodePGDPVR02

This portable mini DVR and Camera set is the ultimate in compact video recording. Great for law enforcement security personnel and sports people alike

Description

- Record high quality audio and video on the move! The color camera delivers quality footage and is small enough to be attached to clothing or equipment alike for hands free operation. Over a dozen shirt button adapters are included for the ultimate in covert surveillance. Simply slot the tiny disguised camera through a button hole in your shirt for completely undetectable recording. There's even an adapter to disguise the camera as a screw!

All footage is saved to the miniSD card (accepts up to 32Gb) allowing for hours of filming. If desired, recorded video can be watched right on the DVR unit's 960x240 screen without the need to plug it into a PC - you can even see the footage on the screen as its being recorded! Great for those in security or law enforcement industries. This unit now also has a motion setting to save on memory and battery life.
