- 1.3MP Push Video Camera with Wireless 3G Modem

Rhino Technology: Code VSPV13M3G

Available in:

OVERVIEW

STAY CONNECTED WITH ALL THAT YOU LOVE! Now you can install your camera ANYWHERE!

Simply unpack, mount and power up the included modem and camera. You can then instantly connect to the camera on your iPhone or Android device.

When movement is detected in the monitoring area, it will automatically record and send an alert to the users via data connection (not a phone call or sms or mms). Users can immediately view the alert video and live stream via smartphone, iPad or PC (email). The alert function can be turned on/ off via your smart phone.

Camera Features:

- Easy network setup with your laptop / PC, and iPhone
- 1.3 Megapixel live MOS sensor with HDTV 720p quality
- Includes 4GB SD card
- "Push Notification" support to send an event notification to your iPhone and Android phones immediately
- White LED built-in to illuminate the scene manually, scheduled by a timer, or triggered by a motion, an alarm, or an audio event
- External alarm I/O device connection
- Microphone & speaker built-in for two-way audio transmission
- Complete Remote Surveillance Compatibility
- 2 major computer operating systems, Microsoft Windows & Apple Mac
- 5 commonly-used web browsers, Internet Explorer, Mozilla Firefox, Safari, Google Chrome and Opera
- 7 mobile platforms, iPad, iPod, iPhone, BlackBerry, Symbian, Windows Mobile & Android

3G Wireless Modem Features:

- In-built 3.75G Modem plus Long-Lasting Li Batteries - Get Rid of Accessories
Insert SIM card to enjoy the high speed 7.2Mbps HSUPA mobile broadband, and two high capacity 2200mA batteries allow you to stay online for hours.

- Not only Mobile Broadband, also xDSL, WiFi Modem, Public WiFi

You may share various kinds of broadband connections, such as 3G/4G, xDSL/Cable, WiFi modem or Public WiFi via this Mobile Hotspot.

- 2T2R Technology - Wireless Data Rate up to 300Mbps

Differ from the entry-level 1T1R products, this Mobile Hotspot carries 2 MIMO antennas, which improve the wireless speed at both transmission and receiving of up to 300Mbps, also the coverage to 4 times larger than 11g.

- WPS – One Button Encryption and Connection

You are able to complete the Wireless encryption and connection by pressing the WPS button on both Mobile Hotspot and the wireless adapter.

- Advanced Power Saving Technology – Save up to 80% Consumption
Complying with the latest 802.3az Energy Efficient Ethernet standard and carrying Green AP technology, this Mobile Hotspot adjusts power consumption via auto detection of internet connection and packet transmission to avoid any waste of electricity, thus it utilizes energy more effectively.

Specifications

Camera Image Sensor	1/3" Live MOS image sensor
Camera Lens	f3.8mm / F1.5
Camera Frame Rate	25FPS
Camera Mobile Surveillance	iPad, iPod, iPhone, BlackBerry, Windows Mobile, Symbian & Android
Camera PIR Sensor	Detection Range 76° wide angle with 5m long distance at 2m height (under 25°C)
Wireless 3G Modem LAN/WAN Port	10/100 Mbps RJ45 x1
Wireless 3G Modem WAN Connection	3.75G, Wired/Wireless modem (Static IP, DHCP, PPTP, PPPoE, L2TP)
Wireless 3G Modem Data Speeds	Downlink : Up to 7.2 Mbps Uplink : Up to 5.76 Mbps
Wireless 3G Modem Data Rate	802.11n (up to 300Mbps), 802.11g (up to 54Mbps), 802.11b (up to 11Mbps)
