

BORG BIOMETRIC LOCK BL9000-3 SC INDIVIDUAL USER MODEL

Product ID: LSC BL90003SC
RRP: \$530.00 as at 12/10/12

Overview

A stand alone battery powered biometric (fingerprint) and pushbutton lock. Single user version. With 3 methods of entry; fingerprint & pin, pin & key override. It has a cast steel construction and stainless steel keypad for durability and strength, and is supplied with 60mm stainless steel latch with anti-thrust pin. It uses an optical sensor with high resolution (500dpi) which guarantees accuracy and therefore speed of access. Fingerprint deletion and enrollment is completed directly on the lock, no

software needed.
