

## **Codelock Mechanical 600 Series**

### **Product ID: LK CL615BSAU**

The new CL615BSAU incorporating the "Quick Code" system allows on-door code change in seconds. Typically most mechanical digital locks require removal from the door or at least to be partly disassembled to change the code. Not now!

The CL600 "Quick Code" system brings significant advantages to commercial users such as hospitals, schools and local authorities. In fact any business that needs to be in control of coded access on multiple doors, simply and quickly. "Quick Code" allows the key holder to change the code from the front of the door. The key supplied is also able to open the door without the code if required. Other standard features of the 615 include:

- Outside operation via punching in the correct digital code, inside function is a free lever at all times
- Outside lever has a slipping clutch to avoid damage to the mechanism if forced
- Front load cylinder feature, allows lock to be rekeyed or replaced
- 6 pin C4 PD style cylinder, Keyline LKW9 keyway
- Non handed
- Key override standard feature
- Over 8000 code combinations

- Ideal retrofit for Kaba 1000 range locks
- For door thicknesses of between 32mm - 65mm
- Easy code change as often as required by removing keypad from the door
- "Code Free" feature enables the digital lock to be used in a passage function. By enabling this feature, access through the door can be gained without the use of the digital code. The "Code Free" feature can then be reset back into a lock or standard function by the operator at any stage
- Latch is a 60mm tubular design with a 70mm option available as an extra
- Weather resistant with stainless steel buttons
- Available in a stainless steel finish

These locks are not suitable for high use doors. Please contact your sales representative for advice on the correct locks for high usage installation.
