

Lenlok CBS Roller Lock Dual Grip Narrow

ID: LK 4323-c4-KD

The design team at Lenlok have recently undertaken a major upgrade of all models. The All New Lenlok range of roller door locks is an advancement on the tired range of like products that have been on the market for many years now. With a far more modern design, retrofit features and keying options, this range is a must for the retailer, tradesman or manufacturer. This model is a narrow style version and is distinguished with dual finger grips.

Features include:

- Retrofits to existing market standards e.g Lenlok 3323
- Uses 2 different barrel systems, C4 4 pin tumbler cylinder for one series, CBS wafer barrel LF36 (LF27) for the other series
- C4 4 pin tumbler cylinder is LKW5 (LW4) keyway. CBS wafer barrel is LF36 (Silca LF27) keyway
Can be supplied with or without barrel / cylinder
- Can be re-keyed without the removal of the main mechanism from the door
- Patented Cam Mechanism Design allows the lock to be changed from a freelatching mode into a deadlocking mode and vice versa
- Cam cannot be removed in the locked position
- Tamper proof screws supplied to enhance security in deadlocking mode
- The key is supplied with a cut code that can be used both from the front and back allowing locking and unlocking from inside when in deadlocking mode
- Ergonomically designed internal operating knob offers a more positive grip
- Locking arms have a 19mm throw
- High quality bright chrome finish zinc alloy metal fascia
- High quality full metal locking mechanism
- Lock body designed for minimum protrusion (smaller than existing Lenlok models)
- The fascia incorporates a patented stainless steel spring clip to hold the fascia in place during installation making installation easier
- Slide arms are constructed from galvanised steel for increased strength and have threaded holes for the screws making installation easier
- Interchangeable logo insert which can be replaced with personalised customer logo on request (minimum quantities apply for personalised name plates, please contact your sales person for details). It can also be flipped 180 degrees for handing of the lock. Logo insert made from UV stabilised high grade material
- Lock body has patented integrated mechanism protectors. These keep the door from applying pressure to the mechanism
- Can be purchased in a display pack for retail purposes
- 4323NB (wafer model, no barrel) accepts LF27WB barrels. The lock includes all parts except barrel, keys, cam & cam / cylinder screws
- Barrel & keys supplied along with cams, cams screws, cylinder screws
- 4323-C4-NC (pin tumbler model, no cylinder) accepts C4-4PIN cylinders. The lock includes all parts except cylinder, keys & cam screws
- C4-4PIN cylinders do not include all other cams & screws , except cam screws
