

### Carbine Orblok Lock Bolt

Carbine Orblok bolts have long been the choice of security specialists when it comes to locking up shop doors in commercial applications. They can be used for either aluminium or timber doors or have a rekeyable cylinder allowing for a range of rekeying options if required. Features include:

- Unique square locking bolt offers difficulty for would be intruders
- Has a bolt projection of 33mm (with the standard size bolt) from the body of the lock in the locked position
- Bolt can be locked into an open position
- Extended bolt models available if needed
- Available in concealed fixing
- Has an easy to grip knob allowing easy lifting of the bolt to either open or close
- Rekeyable oval cylinder allows for restricted or future rekeying
- Provided with a 6 pin C4 keyway cylinder, key blanks available Silca LW5.
- Available in finishes of silver and polished brass

**Note: All models supplied without fixings, various fixing options available**
